

WHAT IS CLAIMED IS:

1. Use of zinc, silver or copper gluconate as an antimicrobial agent for the manufacture of substrates based on fibres, especially cellulosic fibres.
5
2. Use according to claim 1 wherein the substrate is based on paper fibres.
3. Use according to claim 2 wherein the substrate is a sanitary article, a hygiene article or a food packaging article.
10
4. Use according to one of claims 1 to 3 wherein the concentration of antimicrobial agent in the substrate is about 0.01 to 10% by weight, preferably about 0.05 to 1% by weight.
- 15 5. Use according to one of claims 1 to 4 wherein the antimicrobial agent is zinc gluconate.
6. Substrate based on fibres, especially cellulosic fibres, comprising zinc, silver or copper gluconate as an antimicrobial agent.
20
7. Substrate according to claim 6 which is a sanitary article such as a hand wipe, toilet paper, a handkerchief, an impregnated diaper or absorbent paper.
8. Substrate according to claim 6 which is a feminine hygiene article such as
25 an absorbent pad, or a baby article such as an impregnated diaper.
9. Substrate according to claim 6 which is a food packaging article such as a nonwoven or absorbent paper for meat trays.
- 30 10. Substrate according to claim 6 which is a nonwoven based on paper fibres, obtained by the dry method.
11. Substrate according to one of claims 6 to 10 which comprises from about 0.01 to 10% by weight, preferably from about 0.05 to 1% by weight, of
35 antimicrobial agent.

12. Substrate according to one of claims 6 to 11 wherein the antimicrobial agent is zinc gluconate.
